

C G
there are no words there is no song
F Am C F
is there a balm that can heal these wounds that will last a lifetime long
C G
and when the stars have burned to dust
F Am G F C
hand in hand we still will stand because we must

Am C F Am
in one single hour in one single day
F Am G F
we were changed forever something taken away
Am/C F Am
and there is no fire that can melt this heavy stone
F C G F
that can bring back the voices and the spirits of our own

Am C F Am
all the brothers, sisters and lovers all the friends that are gone
F C G F
all the chairs that will be empty in the lives that will go on
Am/C F Am
can we ever forgive though we never will forget
F C G F
can we believe in the milk of human goodness yet

Am C F Am
we were forged in freedom we were born in liberty
F C G F
we came here to stop the twisted arrows cast by tyranny
Am G C F Am
and we won't bow down we are strong of heart
F C F
we are a chain together that won't be pulled apart
